Jamie Peterson

Software Developer

I am a graduating senior looking to solve difficult problems, create innovative solutions, and to be a part of a tight-knit team using an education in both computer science and management to start my career.

Education

Eastern Michigan University
Bachelor of Science GPA 3.54

Aug 2014 - Apr 2018
Major: *Computer Science* Minor: *Management*

Skills

Software Engineering

- Understand software engineering best practices
- Git version control
- Manage multiple projects in different stages of development
- Participate in code reviews
- Experience interacting with clients
- Web & Android development
- Knowledge of Agile and test-driven development
- Writing and revising documentation

Computer Science

- Practical experience in Java, PHP, Javascript with limited experience in Python and C
- Data Structures and algorithm analysis
- Experience with MySQL databases and knowledge of NoSQL fundamentals
- Artificial intelligence and machine learning algorithms
- Analyzing data using Apache Spark

Management

- Project, time, and human resource management skills
- Team-building techniques & organizational change
- Strong oral and written communication skills
- Facilitating cross team collaboration

Leadership

- Able to build a positive environment for a diverse group
- Delegating tasks based on skill set and work load
- Strong skills in giving feedback and encouraging creativity

Experience

Computing Fellow
The Honors College at EMU
January 2017 - Present

Leadership position in a small team developing and maintaining web applications for both internal and external users. This position includes creating documentation, managing the development process, and interacting with both clients and users.
